### **Water Contact Activities Temporarily Suspended at El Capitan Reservoir**

SAN DIEGO – The water level at El Capitan Reservoir has been rapidly dropping over the last several weeks.

In the interest of safety, towable water contact activities such as wakeboarding, skiing and the towing of other devices has been suspended at the reservoir while staff takes measurements throughout the reservoir, relocates navigation buoys, and determines the number of vessels that can be safely allowed to tow on the reservoir at any given time.

Once this work is completed in the next few weeks, we expect boating at El Capitan will be allowed to resume.

For more information about El Capitan Reservoir, and City reservoir recreational activities, please visit our web site at [www.sandiego.gov/water](http://www.sandiego.gov/water)
